Always wear a helmet whenever you ride a bike!  
Check the fit regularly.

Remember

- two fingers between the brow and the helmet
- V-shape straps below the ears
- one finger between chin strap and chin

- Remember drivers in large trucks can't easily see cyclists.
- Always be aware of blind spots.
- Be very careful around garbage trucks.
- When you are going around a parked car, give space in case somebody opens the door. Always leave one meter so you don't get "doored."

- Help keep our waterways clean! (info to be obtained from Nick Stowe)
- pick up garbage especially plastic that clogs waterways
  - ride your bike to go places more often
  - watch out for turtles

Gear  
Changing  
on a Hill  
1 sticker**

Practice changing gears, so that you can use them when you need them, like climbing a hill or starting fast from a stop. Pedaling should be easy so you don't get tired. Gears can make cycling even more fun!
